"Vie de Vis" is the embodiment of the young generation from the Republic of Moldova, which has managed to assert itself in different corners of the world. Longing for the homeland brings these young people home. Our hero is one of them and has a dream - to create a modern vineyard on the land of his parents. He follows his dream and turns it into reality. The country brand Tree of Life is a complex symbol that promotes our national values, including the wine sector - Moldova's business card.

The grapes were collected by hand from our own vineyards in the Tigheci microzone, the region with the PGI "Valul lui Traian".
